

Spring School

May 16-20 2022

Invariants in Algebraic Geometry

Institut de Mathématiques de Bourgogne
DIJON

COURSES

New techniques in the foundation of moduli theory

Jarod Alper (University of Washington)

Cox rings and their applications in algebraic geometry

Ivan Arzhantsev (HSE Moscow)

Quadratic invariants for algebraic varieties

Frédéric Déglise (ENS de Lyon)

Introduction to noncommutative resolutions

Špela Špenko (Vrije Universiteit Brussel)

Organization

Ronan Terpereau, Daniele Faenzi,
Adrien Dubouloz, Frédéric Déglise
